4th Qtr. 2016

President's Message

We have had a successful year and show, many thanks to all who helped and attended! A special Thank You to John Puliz for the use of his event tent; this was a wonderful addition to the show allowing a gathering place from the elements as well as several activities. The addition of the youth passport program was a success; it was nice to see families going around the entire show hunting for particular displays and gaining knowledge about our hobby. Prizes were donated by the farm and club members. Grand Prizes were cool BMX style bicycles made in the USA. Tammy Spadoni, Cindy Neitzel and the ladies put together a year long plant sale from donated cuttings and pots that turned out to be a great time and a good venture, their support is much appreciated! Thanks to the Feature Tractor folks for bringing out a fine display of Moline Equipment and a special Thank you to Ken Christensen for bringing us the Fitch Tractor; we had many very nice displays, including The Beeler's entire line up of Economy Engines. An addition to our show this year was the live auction and Darrel Durbin really did an outstanding job as auctioneer.. In all, It was an impressive show! It takes time effort and resources to attend and to host a show and everyone's support this year was outstanding . I'm honored and I didn't name everyone, but I am very appreciative of your support

See you at the meeting! Dale

Minutes,

Phone conference with John Neitzel, Nick Huff, Judy Huff, Dale Fye, Mike King , April Campbell on Sept. 10 2016 7pm. Selected meeting locations, dates and times and approved the listings in the calendar of events as branch activities. Adjourned 7:10pm.

Submitted by Judy Huff.

Eugene "Gene" Brady

Nov. 7, 1924 - July 7, 2016

Col. Eugene "Gene" Brady, 91,
died July 7th at his residence
in Manchester, WA.

Our club also mourns the
passing of past club President

Donald Lester Fifer

May 1, 1928 - July 2, 2016

Don with sons Tom & John have
been involved in engine shows
for years.

Don had F.M.Z, Fuller Johnson,
Economy and Fairmonts along
with a large can crusher he
made. Don is remembered
fondly by many members.

**To submit an
announcement, obituary or
letter of remembrance in
honor of a club member
please contact the editor or
the sunshine lady.**

Edwardseditorial

Ever since humanity has been around, the thing that has made us different is we have something that, for want of a better word, is the human spirit. It is said that "necessity is the mother of invention." Maybe. But it is the human spirit that makes it happen. The extreme love someone feels or the sacrifice one makes for someone or something, that too is part of the human spirit. However, there is a bizarre or even a borderline funny thing about the human spirit. You hit it, the human spirit, and it hurts. *It hurts physically.* Laugh at or ridicule it, it hurts. *Hurts emotionally.* Take something from it, the human spirit, it hurts. *It hurts mentally and psychologically.* But yet, after all of these things, the human spirit is so strong that against all odds, against all logic, against all hope, it fights back. It becomes stronger and better than it was before. That is one of the reasons it, the human spirit, remains so vital. Always. But not this time, not this month, not this year, maybe never again. Someone was taken from us on 7 July 2016: Gene Brady. He was truly one of the good guys. He cared about other people, the hobby, all things. He cannot ever be replaced. I know you've all heard stories about the things he has done for people. A small example: Back in '96 I was taking an engine to the National Show in Union Gap. I was showing it to Gene at an earlier show and he was making fun of the oiler on it. I explained that I could not find a real oiler and had no idea where to find one. I looked. "Let me see if I can find one. It has to be sized to the engine." He comes back with a #6 Lunkenheimer, just gives it to me. At the National Show, I was talking to one of the wheeler-dealer guys. He says, "Nice engine. I even like the oiler." "Yeah, I got it from Gene Brady." Astonished, he says, "Brady never sells anything, ever." "Oh no," I answered, "he didn't sell it to me, he just up and give it to me." A shocked look resulted. I personally will never sell this engine, not because of the engine but because of the oiler. It would be sacrilegious to separate an oiler from an engine that belong together. On Friday night before the Shelton show of 2016, I was walking across the show grounds. I had just opened a beer, probably. About 50 feet to my right someone named John, who had a beer in his hand, lifted his beer in the air. I reciprocated his motion and spoke in a loud voice, "To Gene." I did not hear what if anything he replied but knowing John, he probably would have replied, "Amen, brother." Several times John said, "You know, you're my brother." Maybe. Although I feel closer to him than I ever have to my brothers. Is there even a word for that? What we want to do is for everyone to have a synchronized toast, "To Gene." He more than deserves it. However, there is one shining light in all of this, if we would remember the final line of sonnet forty-three from "Sonnets From The Portuguese". It applies to us all, especially Gene.

If this is called a Eulogy, I will never write another as I find it too emotionally painful. Brian Edwards
