

# ANTIQUE FARM ENGINE AND TRACTOR ASSOCIATION

## PRESIDENT'S MESSAGE

**Hello** from the EDGE&TA Branch 206 show in Wellton Arizona!

Traveling is a little out of character for us but we have made a resolution to get to as many tractor and engine shows as possible this year and help out where we can; and the idea of a little sunshine was also appealing! The Branch 206 has a wonderful group of folks and their show lay out gives us some great ideas, although Buster Brown has assured me of his "patent rights"! The school kids came through early Friday which was very nice too.

These folks run a great show and although I didn't help much it was certainly refreshing to see others running an organized, fun event. For those who travel closer to home I'd encourage you to think about some of the local clubs that could use some support. I've had many conversations over the past year about club membership and attendances and many have shown a decline in foot traffic and participation from members. It just takes one to make a difference, so I ask you to join me in

making an effort to get out to one extra show this year. Matlock Old Timer's Fair is the weekend before our Spring Swap Meet and I'd like to also remind you that there's a great Show at the Iron Ranch in Ridgefield just two weeks after our Summer Show.

Our own club is fortunate as our Lyon's Boys, the young Prines, Buetows, Isaac and the growing Beeler and Hadaller Girls represent us well. Yet, with so many other activities available youth participation is a struggle for us and many clubs. April is reaching out to the local schools in advance this year, inviting kids to attend and seeking volunteers and participants for the Tractor Driver's Certification Classes. This may be something we can offer as a joint effort; let's discuss this at the meeting- bring your ideas!

See you all soon, Dale

## MEETING MINUTES

Our last gathering was the Christmas Party, no minutes to report.

It has been agreed upon by the Board of Directors and memberships' vote that our calendar listings are designated Branch 245 events. Be Always Safe and Follow your EDGETA rules while attending any and all events with your machinery. Have a great time out there representing our old iron hobby! EDGETA Rules can be found online at

<http://edgeta.com/legacy/safety.htm>

January 21 2018

Hot air Engines gathered for the Southwest Forgotten Iron Show Jan. 19-20 2018 in Welton Az.

Motor Homes and Travel Trailers lined up facing the engine displays making it easier for participants to tend to their engines and be closer to their creature comforts. Buster Brown claims this is said to be a "patented show layout" .

## CLASSIFIED ADS

1949 Chrysler Tractor possibly 1 of 2 built. Buster & Darlene Brown ask that you call them with any knowledge about this tractor you have to share and The Sign Reads:  
Make offer (928) 210-6751

## Youth Tractor Driver Certification Tests

**NO EXPERIENCE IS NECESSARY to participate. This program offers the opportunity to learn farm equipment safety and earn your National EDGE&TA Driver's License. This is a safety course, designed to be educational and provide a sense of accomplishment. Graduates may participate at National Events and our Annual Tractor Show.**

**Test #1** The instructor will discuss the basic operation of the equipment with the student to determine if the student was familiar with the equipment. When the instructor is satisfied the student is qualified to begin the operational phase of the test the student would get on the tractor/equipment and demonstrate to the instructor their knowledge and the location of the following items on that particular piece of equipment:

- \_ Ignition switch/starter switch.
- \_ Throttle, choke, and fuel shut off valve.
- \_ Clutch (foot or hand depending on the type of tractor).
- \_ Brake and brake locks.
- \_ Shifter and shift pattern.
- \_ Belt pulley control.
- \_ PTO control.
- \_ Emergency shut down procedures.

Classes are sponsored by  
Antique Farm Engine and Tractor Association  
EDGE&TA Brand #245

For more information call  
(360) 490-8441

**Test #2** The instructor driving the lead tractor will conduct the group of students on a short parade, stopping and starting several times to insure that the students are able to maintain the proper distance between his/her equipment and the one in front of each of them. (EDGE&TA Parade Safety Rules will apply.) After the instructor is satisfied each of the students has demonstrated his/her ability to control the equipment in a safe manner, the instructor will circle (PASS or FAIL) and sign the application form for Test #2

**Test #3** The student will back the vehicle up a small incline and/or up to a set of cones then stop the vehicle, shift into neutral gear, set the parking brake, and remove his/her feet from brake pedals to ensure the parking brakes are working. (If an incline is not available the student may back up into a set of cones, stopping as close as possible to the cones without knocking them over.) The student, when signaled by the instructor, will put the vehicle in gear and safely drive forward from the incline or cone area and stop. The instructor will circle (PASS or Fail) and sign the application form for

**Test #4** Pull Test (This test applies only if the student will be entering pulling competition or pulling other equipment.) The instructor has the student back up to some piece of equipment (sled or other equipment). After backing the tractor safely into position the student stops the tractor, shift into neutral gear, and raise both hands to signal they were ready to hook up to the equipment. When the equipment has been hooked up to the tractor, the student then shifts the tractor into low gear and safely moves the equipment a short distance. The student stops the tractor and unhooks from the equipment when the instructor was satisfied the student has demonstrated his/her ability to control the tractor in a safe manner. The instructor would circle (PASS or FAIL) and sign the application form for Test #4, and have the student drive safely back to the starting area.

Upon Completion of the 4 Tests The Student returns to the starting area and waits for the Safety Officer/Instructor to sign the application and issue the temporary driving certificate. Once the student has received the temporary certificate he/she will be allowed to participate in parades, pulls, and other activities the same as members who have a valid Motor Vehicle Operators License. If additional equipment/tractors are to be added to the certificate, a new test for that equipment/tractor would be administered.

**TRACTORS WILL BE PROVIDED BUT, YOU ARE WELCOME TO BRING YOUR OWN TRACTOR FOR THE SAFETY COURSE AND TESTING.**
