Official newsletter of EDGE&TA Branch #245

2nd Qtr. 2017

President's Message

Our Annual Spring Swap Meet is April 29th – You are invited to join us and bring many many items to sell. Please come early, set up will be Friday the 28th beginning at noon, your help would be appreciated. Dry camping available.

Here's a map so you can find us. Google address :

11 E Johns Creek Drive Shelton, WA

I'd like to extend my gratitude to those club members who donated their skills, tools, materials and time to construct the new Branch #245 building. There are a few pictures in this newsletter but I encourage you to come out and see the new building first hand. Along with great help, we had donations of lumber and board siding from Jon Westerlund that really dressed the building up. Please join me in thanking everyone who has contributed at our next club meeting May 6th at the Old Timer's Fair in Matlock, WA. Our yellow engine club sign will be outside the meeting room making us easy to find.

We'd like to support Leroy Valley who, is a club member of Branch 245, as he works tirelessly to support the local youth and our communities. Admission to Matlock is free so come out and show, swap or just attend if you can.

See you soon, Dale

BRANCH 245 OFFICERS PRESIDENT

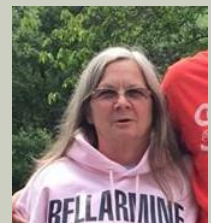

Dale Fye (360) 426-9299

VICE PRESIDENT

Judy Huff (360) 830-4508

TREASURER

April Campbell (360) 490-8441

General Meeting - March 25 2017

Meeting was called to order at 11am. April led us in the Pledge of Allegiance.

This meeting was held in Craig Kinnaman's museum in Tumwater. There was a big round of applause to thank Craig for inviting us to his museum. We were all very impressed with his collection. Dale then held a moment of silence for lost members and friends, Vernon Cole and Ted Spoelstra. Dale then had the group go around the room, one by one, and identify themselves. So often we go to meeting or gatherings, and talk and interact with fellow club members and guests and then go home and wonder who that enjoyable conversationalist was....So it's good to put names to faces once in awhile! It was announced to the crowd that George Rhoads has replaced Mike King on the board and Isaac Henning has been included as a Junior Member. As an aside, it sure would be nice if members could try to recruit grandchildren, neighbor kids, or other teenagers into the club. Our membership is getting older by the year and we're just not finding or including the younger crowd. Isaac is a great example of a teenager who finds machinery and how it works interesting. There are others out there, both boys and girls. And if their parents are interested - that's even better! April gave a treasurer's report. She has cashed out one of the low interest rate CDs for the purchase of our new Exhibitor's Building. This amount was about \$9000. She doesn't have a true total of our assets until all the dues are in, but, it will be about \$8000 which includes both the checking and the remaining CD. OLD BUSINESS There is still a coffee meeting held at the Sister's Restaurant in Shelton every second and fourth Wednesday of the month. In just the last month or so, these meetings yielded the acquisition of 2 new members, Steve Gay and Jack Sur. The club is looking into getting large patches for the back of a jacket. Warren Roberts is getting the price for 50 of them. This will probably be voted on at the next meeting. The gardeners of the club have been busy potting cuttings, starts, and seeds into pots that Frank Stricklin donated to the club. We have more pots if anyone needs any including small ones for house plants. And we'll take any cuttings or starts that you have. This plant sale proved to be a very big money maker at both last year's swap meet and show. Swap Meet - almost all the covered vendor spots are taken, there are 2 left at the time of this meeting. You can call April to request a spot and then pay for it when you arrive on site. Speaking of swap meet and covered vendor spots - the footings for our new Exhibition Building is in and looks great. We had lots of help that day including Spadoni's, Huff's, Neitzel's, Steve Gay, George Rhoads, and Emmet Tuckness. The job foreman, Ed Murphy, had fun trying to keep us all in line and doing our assignments correctly. A big thanks goes out to him. Since this meeting the building arrived, was assembled and is now standing up. The next phase will be the roofing which will be done for the swap meet. NEW BUSINESS The July show theme will be International Harvester Corporation. This includes many items including engines, tractors, trucks, and farm machinery. We had been told the Antique Truck Historical Society (ATHS) would be attending our show. They have since decided to go to the Elma tractor pull, being held the same weekend, instead. As it turns out, many of the members have decided to attend our show instead. This club has been bounced around the last few years from location to location since the Shelton airport quit hosting local events. They would really like to find a location they can use from year to year. Many of the members feel our Old Iron Event Center fit their needs. We look forward to many years of the truck club joining our yearly show. We're also hoping to have the local 4H club, Future Farmers of America and the Boy/Girl Scouts as well as the local schools attend our show. These are the future tractor and engine owners. We need to get these kids interested in this machinery history.

General Meeting Minutes Continued:

Some upcoming events were passed along: May 8th Matlock show at the Mary M. Knight school, May 13th the gas-up at the Skagit County Fairgrounds, Father's Day annual show in Pottsville Oregon, and the EDGE&TA Northwest Regional Show June 16-17th in Filer Idaho. There appears to be a large contingent of Branch 245 members planning to attend this show. Frank Stricklin noted that all events are listed on the club's website, exhaustfumes.org. Another event is our new fall swap meet on the 28th of October. It was voted on and agreed that All events listed in this newsletter are official Branch 245 events. There is talk of a meeting in May to christen the new building or maybe a club barbeque in June before the show. At the end of the meeting, Craig was nice enough to give us the run down of how he started his museum and his plans for the future. Evie Ockfen made a motion that we donate \$100 to Craig for the use of his building. This was approved and passed. The meeting was adjourned at about noon....

Board Meeting - March 25 2017

Do to the lack of board members, we did not hold a formal board meeting. We did talk about the building assembly which will be happening in the very near future.

Why are barns Red?

Hundreds of years ago farmers painted their barns with linseed oil to help seal the wood and keep it from rotting. Rust was mixed with the oil to keep fungi and moss from growing on the wood. This turned the oil red in color.

Barns today are still painted red in honor of that tradition

Thank You, Ray Reynolds
for this little historic tidbit!

MEMBERSHIPS DUE IN JANUARY

Branch 245 Annual Show July 8th & 9th 2017

Features International Equipment So Let's See it!

We chose IHC as our feature because of the wide market base including Tractors and Engines but we'd like to see all of it! Who knows what else they built?

The Gadget Booth Our club tent will have tables set up for you to bring your IHC and other odd kitchen items, old tools or small machinery for display and if you'd like; demonstration for the public's interest.
